## Important Things to Know...

### 1. Turnaround Time

While we strive to process your film in a timely manner, please note that turnaround times may vary based on the type of film, order volume, and other factors. We will notify you of any significant delays

### 2. Film Condition

By submitting your film, you acknowledge that the condition of the film upon receipt is beyond our control. We take great care in processing and handling all films, but we are not responsible for any pre-existing damage, defects, or issues with the film itself (such as expired, damaged, or improperly stored film).

### 3. Lab Quality and Results

All film processing is done according to industry standards, but please note that results may vary based on the type, age, and storage conditions of the film. We do not guarantee specific results, such as color accuracy or exposure quality, especially for expired or improperly stored film.

### 4. Refunds

Due to the nature of film processing, we do not offer refunds for processed film, except in cases of clear lab error, such as film damage during processing.

We respect your privacy. Any personal information you provide will only be used for processing your order and **will not** be shared with third parties without your consent.
